Gene Webster, DVM

Shayla Mihelich, DVM

Please crate train me!

My crate will be a safe place. A safe place I can go to rest and to get away from scary things or people.

My crate will let me get away from children and other strangers; keeping me and them safe. I won't get hurt and I won't bite when I'm in my safe place.

My crate will help me to learn not to mess in your house. It may take me a few times but I will learn to not mess in my crate.

My crate can be taken with me when we travel so my safe place is always with me in strange places and I will help me feel safe and secure.

My crate will help me adjust to being kenneled when I go to the vet if I get sick or hurt and I won't as get stressed or anxious because my crate is a safe place and a kennel can be too.

My crate always smells like me and makes me feel familiar and secure.

My crate keeps me from destroying your house or vehicle.

My crate is a safe place if there is ever a disaster like a tornado, house fire or flood and may help keep you and me more at ease during a stressful time like these.
